31 January 2014

Dear Representatives of U-District Square,

Our University Park Community Club, representing resident homeowners in the area north of Greek Row, from 50th Ave NE to Ravenna Park, is very interested in your endeavor to secure a public open space in the heart of the U-District. We had a board discussion about this topic and have solicited input from our members. The response we received was unanimous in supporting the idea of an open space.

At this stage we do not want to weigh in on any of the alternatives you have proposed so far, but with the projected growth in the area and the light rail expansion, we need open public space to connect and integrate the main destinations in the U-District, such as the Ave and the UW campus with the future light rail station.

We therefore wholeheartedly endorse your efforts to make the U-District a great place to live, work or visit, through a highly utilized and integrated public open space.

With our best wishes for your success!

Kent Wills
